

Vacuum Attachment for Mixing Buckets

The device slots onto the rim of most sizes of bucket and in conjunction with a vacuum allows for dust-free indoor mixing.

- Ideal for flooring, tiling and plastering.
- Compatible with most vacuum cleaners.
- Eliminates dust from mixing mortar and grout in buckets.
- Does not allow dust to escape the top of the bucket.
- Allows working/mixing inside.
- Prevents extra cleaning caused by excess dust.
- Easy to use and quick to remove.
- Light and compact design.
